

DRY GRINDING CUPS

WEL-CO GRINDING CUPS are designed to provide the highest productivity at the lowest operating cost. They are produced at our facility in Oldsmar, Florida using only high quality virgin synthetic diamonds. Grinding Cups are available in two designs to provide either faster material removal or smoother finish. Custom grit sizes and configurations are available upon request.

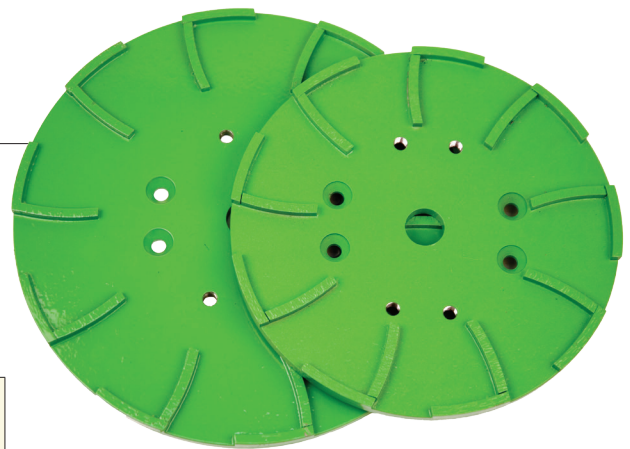

Size	YCG	GCG
4" x 7/8	\$ 134	\$ 141
4" x 5/8-11	\$ 134	\$ 141
4.5" x 7/8	\$ 161	\$ 169
4.5" x 5.8-11	\$ 161	\$ 169
5" x 7/8	\$ 175	\$ 184
5" x 5/8-11	\$ 175	\$ 184
7" x 7/8	\$ 227	\$ 238
7" x 5/8-11	\$ 227	\$ 238

Cup Specs	
YCG	Has a 1/4" (.250) wide diamond segment rim for a fast removal rate on concrete
GCG	Has angled 1/4" (.250) diamond segments which create the widest rim for removal with a smooth finish on concrete
